Media Information

The LONMARK Magazine is the official publication of LONMARK International and the only international trade magazine dedicated solely to the promotion of LonWorks[®] technology and solutions based on the the EIA/CEA 709.1 and EN14908 protocol standards.

The LONMARK Magazine combines features on new technologies, products and applications, innovative product announcements, industry news and events with LONMARK activities. In addition, several columns from high-profile contributors, writing on a variety of topics from technology and management to business matters.

12,000 copies of the magazine are printed every quarter and distributed to industry professionals in 60 countries around the world.
